DISPATCH NO. ^{auth} KAPOK MGB-7-2912

SECRET
CLASSIFICATION

DATE: 28 December 1948

TO : Chief, Foreign Branch M
FROM : Chief of Station, Karlsruhe, Germany C
SUBJECT: Operational: PASTIME, Progress Report #2
REF : KAPOK B-250

1. Following is a breakdown of ECB agents slated to participate in our PASTIME program. As things stand now, we believe we can count on 23 stay-behinds in the event of PASTIME, with 19 additional agents who look like good candidates but who are still being evaluated. The weakest aspect of our PASTIME program is that of communications. We are still, for the most part, in the early stages of arranging secure means of transmission for intelligence to the west, and we shall devote the rest of our energies to this end. Aside from the radio program which is a long-range affair, we propose to find for each stay-behind a transmission channel adapted to his circumstances, on the assumption that there will continue to be commercial and other kinds of intercourse between eastern and western Germany under PASTIME.

a. Agents who will stay behind under PASTIME:

1. CAHIER	9. CALABAR 21	17. CAPOTE 2
2. CAISSON 8	10. CALAMUS 2	18. CAPOTE 6
3. CAISSON 10	11. CALAMUS 3	19. CAPOTE 7
4. CAISSON 10a	12. CALAMUS 4	20. CAPRIOLE
5. CAISSON 11	13. CALDRON 3	21. CAPSTONE
6. CAISSON 12	14. CALESA 8e	22. CAPTAIN
7. CAITIFF	15. CALF 18	23. DERBY
8. CALBAR 97	16. CALIPER	

b. Agents who are tentatively considered PASTIME prospects, but who need further study before incorporating them into the plan:

Credible, it is thought that the subject of this report is a valuable asset to the British and French. The subject is a well-trained and capable individual who has been working in the field of intelligence for some time. It is hoped that the subject will be able to provide valuable information in the course of time. The subject is also a well-trained and capable individual who has been working in the field of intelligence for some time. It is hoped that the subject will be able to provide valuable information in the course of time. The subject is also a well-trained and capable individual who has been working in the field of intelligence for some time. It is hoped that the subject will be able to provide valuable information in the course of time.

2. C.I. 1, 2, 3, 4, and 5 have been dropped for reasons reported above.
3. C.I. 6 is continuing his training. Also, he is to obtain his certificate in the field of intelligence. In December 1946, he was assigned to work in a sound cover job in this field.
3. It is thought now that C.I. 7 may fit into the existing picture. Always assuming that the initial time period is completed is not transferred to the field. The subject is to be used, however, it will be necessary to arrange for dependable photographic apparatus to be made available to him. This is as yet a tentative plan.

2. C.I. 8. Case officer []

No change.

3. C.I. 9. Case officer []

This agent is likely to be dropped as a result of a recent re-evaluation of her potentialities.

h. C.I. 10. Case officer []

This agent is making satisfactory progress in his training as a radio operator.

i. C.I. 11. Case officer []

This agent is continuing in his present position in Berlin. He is proposed to equip him with photographic apparatus for copying documents.

j. CHIEF 2, 3, 4. Case officer []

This chair is progressing slowly but surely in the L-100 project, to which it is specifically designed for. Plans are being worked out with this chair to create a supply of food and money for L-100 purposes.

k. CHIEF 2. Case officer []

No change, except that the subconscious of this agent, being of the unwitting variety, will not lend themselves to L-100 purposes.

l. CHIEF 100 Chain. Case officer []

1. This chain is not being revamped. L-100 progress will be reported later.

m. CHIEF 3. Case officer []

This agent will be worth contacting under L-100. He is making satisfactory progress in the direction of a possible Western German Foreign Office. If the latter possibility is realized, contact will be possible at the diplomatic level.

n. CHIEF 6e. Case officer []

No change.

o. CHIEF 18. Case officer []

This agent is organizing his contacts and preparing them for carrying on with the work in the event L-100 is invoked. Several prospects are being considered as radio operators. Safe houses are being spotted in the Soviet Zone, and locations for secret caches have been found and charted.

ac. CARLIL. Case officer []

The CARLIL agents will not bind themselves to CARLIL exploitation on a chain basis. Our plan for the transfer of CARLIL himself to Trieste under PASILL, as reported in LUNCH B-250, however, still holds. A number of the CARLIL agents, moreover, should be evacuated to the West under PASILL to deny their talents to the Russians.

ab. CRITAK. Case officer []

No change.

cc. CRIVIL. Case officer []

When this agent was recruited, he was given to understand that he had a chance of working for an exit permit to South America. Obviously this has not materialized and he has not mentioned the subject for months. I believe that as long as he feels that we plan to stay here he is willing to play ball, but that our pulling out of Berlin without first evacuating him would leave him anguished and unwilling to cooperate further. This matter is complicated by the fact that he has an attractive young wife who had serious trouble with the Russian troops in 1945, when she was forced to live in the cellar for weeks to avoid being raped. I will sound him out on his present state of mind, but have very little hope that he will agree to cooperate under PASILL, or that if he did agree, it would be wise to bank on his sincerity.

ad. DUFFY. Case officer []

This new agent is still being studied for PASILL possibilities.

ee. DUFFY. Case officer []

This agent is still being studied for PASILL possibilities.

ff. L. COB. Case officer []

Too early to come to any conclusions.

gg. L. DUFFY. Case officer []

To be assessed by [] directly in order to come to a decision in the next month or two about her value and future possibilities.

hh. L. HOD. Case officer []

This case is too new to permit any conclusions as yet.

ii. L. EV. Case officer []

This agent will function equally well under FISHIE or with the present set-up, except that communications will become complicated. She understands that we may pull out, but that that would mean establishing bases new to the room from which we hope to do business as usual.

jj. L. HUGA. Case officer []

This agent, having been dropped, does not figure in our FISHIE plans any more.

kk. L. INGERT. Case officer []

If we use this agent at all, he will be able to function under FISHIE as well as under present circumstances. Communications would be made more difficult. We have discussed with him the possibility that we might be forced to leave Berlin and/or Germany and/or Europe, and he is willing to take on the job we hope to do, whatever the condition or location of our set-up here.

ll. L. G. Case officer []

It is too early to come to any conclusions.

na. DUFF. Case officer []

This agent will have to be contacted in the past to the office when he is in the office. He is not a member, and could not have been.

na. DUFF. Case officer []

✓ Intelligence, this agent would not be worth retaining under ILLUM. However, the agent is willing to accept a special contract to the west, and if he does not return from any country, I am sure he can be used for to the west, letter-drops, etc., by taking over the ILLUM for the agent's living.

na. DUFF. Case officer []

This agent will be worth operating under ILLUM. He is willing to operate under such conditions. He is being used into the ILLUM chain for communications under ILLUM.

na. DUFF. Case officer []

This agent, having disappeared, is no longer included in our ILLUM plans.

na. DUFF. Case officer []

This agent seems to have ILLUM. The ILLUM is not to escape in such the same way as he assisted in the ILLUM's case. He cannot stay in Berlin if we go, according to his ILLUM. He may have different ideas, however, and he will be sounded out on the matter.

na. DUFF. Case officer []

Too early to tell.
